THINKS AIR FLYING FOR PLEASURE ONLY

Berlin, Germany, July 14.—Prince Henry, of Prussia, the emperor's brother, is one of the pioneer aviators of Europe, who does not believe that aeroplanes, judging from their present standard, will ever be used for any other purpose than in the pursuit of pleasure.

"I can see no future for flying so far

as the ordinary man is concerned," said Prince Henry the other day at Kiel. "It will always be too expensive a pastime. In my opinion one of two things will come to pass—either a combination of the heavier and lighter than air principles will solve the problem of the aeroplane or it will remain always a plaything, and a dangerous one."

Prince Henry was not only the first royal aviator, but he was flying a "right machine" when only five other men in Europe had ventured to go up in an aeroplane.

ACTRESS TO MARRY RICH ENGLISHMAN

London, England, July 14.—Miss Marie Lohr, the well known actress, according to rumor, is engaged to be married to Lord Howard DeWalden, one of the wealthiest peers in England. Miss Lohr was for several months en-

gaged to Robert Lorraine, the actor, but her mother strenuously objected to the match, and it was finally broken. Lord DeWalden, who is related to the duke of Portland, owns vast property in London and the provinces. He is still a young man. If this new match is definitely arranged, Miss Lohr will become the wife of one of the most powerful and interesting peers in the British empire.

AMUSEMENTS.

NOVELTY AT THE CRYSTAL.
A genuine novelty will be shown at the Crystal theater today, says manager Winch. It is called "A Tragedy in Toyland," and dolls are the actors. So life-like are their actions at times, says Mr. Winch, that one can scarcely believe that they are not alive. It required 125,000 separate movements of the dolls, 15,000 exposures and a photographer's time for three months to produce the picture.

ANOTHER GOOD REASON FOR SWATTING THE FLY.
New York, July 14.—About a week ago a swelling was noticed on the left ear of Eysarold Thomas Halloran, of No. 344 Park avenue, Union Hill, N. J. The child became steadily worse several doctors being unable to give relief, and it died yesterday.
An autopsy revealed the remains of a large house fly within the cavity of the ear. The insect had penetrated beyond the drum, died there, and in some way caused blood poisoning, which affected the boy's brain and ended in death.

The Biggest Market in El Paso The People Know It. "They Say So."

What Ardoins Has Done For El Paso

First to establish the finest market in the West.
First market to advertise prices in El Paso.

Las Cruces and the Mesilla Valley

NEW HOTEL BEING URGED FOR CRUCES

Possibility That New Hostelry Will Be Erected There Soon.

Las Cruces, N. M., July 14.—The necessity for a new, modern hotel with accommodations for the traveling public as well as room for permanent boarders is being felt here, and a movement has been started to organize a hotel company with local support to erect a modern building that will be strictly up-to-date, affording the best accommodations possible, and the office has already been made of a suitable site for the hotel, the owner taking the value of the property in stock of the hotel company.

MAN KILLED AT CRUCES WAS A HOMESTEADER.

Las Cruces, N. M., July 14.—The accidental death of J. W. Luce on the Santa Fe right-of-way north of Las Cruces early in June was the occasion of numerous inquiries as to who the victim was and where he came from. An answer to the question as to the reason for his visit to Las Cruces has been received in a letter at the U. S. and office here from Columbus, N. M., in which it appears that homesteader entry No. 65163 was made by J. W. Luce on February 20, 1911, covering the northwest 1-4 of section 18, township 28 south, range 7 west.

From the letter above mentioned it would appear that this homesteader was a valuable tract of land and the heirs of the deceased still have a few days within which to perfect settlement on the land in case the entryman failed to do so, or if they do not come forward to claim the land it will be open to contest.

LAS CRUCES DAILY RECORD.

Las Cruces, N. M., July 14.—The following papers have been filed for record here:

Deaths.
Rumada and Andres De La O, Salm.

OLD TIME PATENTS IN CRUCES OFFICE

First Land Grant Issued by President Hayes in 1880.

Las Cruces, N. M., July 14.—In the archives of the United States land office here can be found a large number of patents issued by the government for lands in southwestern New Mexico. Some of the owners are dead, others have moved away, and the original deed to the property lies in the safe at the land office without any claimant.

The oldest patent in the office was issued by president Rutherford B. Hayes to John D. Ball in November, 1880, covering 40 acres of land in Dona Ana county.

Next in point of age comes one issued by president Chester A. Arthur on November 13, 1884, to William H. Asbury for 40 acres of land in Socorro county. President Benjamin Harrison leads the list of old patents for number of patents remaining in the office, as the following were all found in the safe: James R. Bullard, Jan. 22, 1890, 120 acres; Addison Barker, May 10, 1890, 160 acres; Ernest E. Brooks, March 7, 1890, 160 acres; William W. Bratton, Oct. 3, 1890, 80 acres.

There are numerous other patents signed by presidents Cleveland, McKinley and Roosevelt, and these documents are awaiting the application of the owner to be turned over to the proper persons. The presence of these documents in the land office can only be explained by the possible death of the claimants before the final proofs were approved by the general land office at Washington.

CRUCES MILITIA TO HOLD ANNUAL BALL

Las Cruces, N. M., July 14.—On Saturday night the national guard will hold its annual ball before going to the encampment. The boys are all wearing the new uniforms and it is expected that on the occasion of the ball there will be quite a military air to the assembly.

THURSDAY BASEBALL NOW ON LAS CRUCES PROGRAM.

Las Cruces, N. M., July 14.—At the meeting of the baseball commission it was decided to carry out the plan of having a baseball game every Thursday afternoon. The park will be used on Sundays by the mixed nines or for practice.

LAS CRUCES PERSONAL NEWS.

Las Cruces, N. M., July 14.—M. B. Peterson and wife, Mrs. Hamilton and Mrs. Peterson, the mother of Mrs. Hamilton and Mr. Peterson, left for an extended trip to the coast.

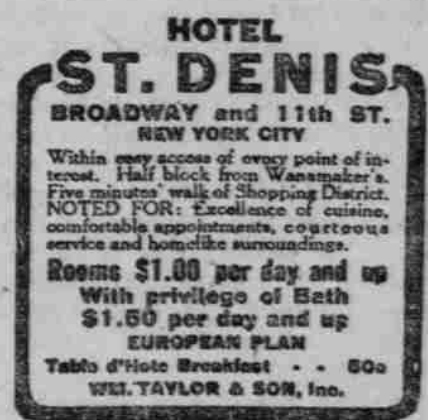

Judge Wright of Alamogordo, is in town hearing several cases in regard to local land matters.

Mrs. J. W. Riley of Denver, is in town and will remain for several days while looking after real estate investments on Main street.

Give us a trial and you will dispel all doubts as to our ability to supply you with better feed than you secure elsewhere. Our stock is large, which assures you of prompt deliveries and our prices are as low as the quality will permit. Right now is the time to give us that trial order.

SEVENTY MILLION ACRES TO BE OPENED TO ENTRY

Seattle, Wash., July 14.—Seventy million acres of government land now closed will be thrown open to entry upon the completion of investigations of 14 government survey parties now in the field in North and South Dakota, Montana, Wyoming, Idaho, Washington, Oregon, Utah and Colorado, according to W. G. Calvert, government geologist who is making a general inspection of work done by the geologists of the survey parties. Mr. Calvert said that this land will be opened by the interior department just as soon as the amount of coal in the land is ascertained. The coal on these reservations practically is the only thing that has caused them to be held up until this time.

Mutt and Jeff are with us. Another appearance today on Classified page. Every day in The Herald hereafter.

Impure Drinking Water

Is the direct cause of typhoid, malaria, dysentery, diarrhoea, cholera morbus, and all the other fatal hot weather complaints. Duffy's Pure Malt Whiskey is prescribed by doctors as a sure preventive and cure.

If you are going to the seashore or countryside for your summer vacation TAKE A BOTTLE OF "DUFFY'S" WITH YOU.

Most summer hotels and rural dwellings depend for their drinking water upon "the old well." A wealth of romance has been weaved around the well in both song and story, but modern medical science has shown that, nine times out of ten, "the old well" is a breeding place for countless typhoid germs and other virulent bacilli.

The cause for this is readily understood by the fact that the sewage from the outhouses and waste matter from the kitchen permeate their way through the ground to the well.

The same is true, and in a larger way, with the streams from which the villages, towns and cities draw their supplies, and it behooves every one to be careful with his drinking water, especially at this time of the year, when so much is used.

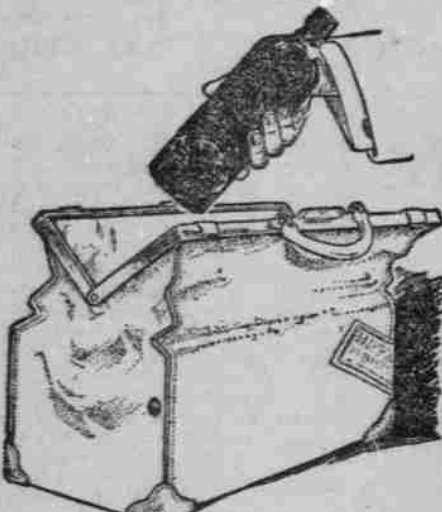

Keep the system in such good condition that these germs will be unable to obtain a foothold.

Duffy's Pure Malt Whiskey

STANDARD OF PURITY AND EXCELLENCE SINCE 1860

As a tonic stimulant and body builder is one of the greatest strength givers known to science. By its building and healing properties it assists in restoring tissues in a gradual, healthy, natural manner. As a nerve tonic it has no equal. It cures dyspepsia and biliousness, aids digestion, brings restful sleep, stimulates the blood, invigorates the brain and assists in freeing the entire system from the dread germs of malaria and low fevers.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the Government as a medicine during the Spanish-American war. Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, \$1.00 a large bottle. The Duffy Malt Whiskey Co., Rochester, N. Y.

BE SURE TO PUT A BOTTLE IN YOUR SATCHEL
